

THREE DAYS LATER from EUROPE.

Arrival of the Africa.

AN ARMISTICE CONCLUDED
BETWEEN AUSTRIA and FRANCE!

DECLINE IN BREADSTUFFS, &c.

NEW YORK, July 21.

The steamer Africa has arrived with supplies to the Suez Canal three days later than previous advices.

An armistice has been agreed upon between the contending parties, until the 15th of August.

The effect of this had been a great buoyancy in all the money markets, and strong hopes were entertained of peace.

On the 19th Napoleon telegraphed that the armistice, agreed upon the 5th, was signed at Villa Franca by Hess and Valant St End on the 15th, and stipulates that commercial vessels, without distinction of flag, shall be allowed to navigate the Adriatic unmolested.

The Paris Ministry can hardly public against non-interference during the armistice, and says that negotiations may be recommended, but it does not see how the war can be terminated.

The armistice has caused much excitement.

Consuls have advanced 14½ per cent., and on the Paris Bourse the advance was 2½ per cent. The Austrian funds at Frankfurt rose ten per cent.

Prior to the declaration of the armistice, the Sardinians had proceeded vigorously in the siege of Peschiera; but this and other movements have now lost their interest.

In the Federal Diet, on the 7th, Austria proposed to mobilize the whole Federal contingent, and requested the Emperor of Prussia to command the troops.

ENGLAND.

The seizure of the British ship Laurel, at Baltimore, and the coasting trade between New York and California, via the Isthmus, claimed the attention of the House of Commons. The Government promised to represent the matter to the Federal authorities at Washington.

The Naval estimates had been introduced in Parliament, and 10,000 additional men asked for.

It is reported that the mail steamers have been notified to prepare to carry armaments, according to their contracts.

The ship Sarah Minot, at Boston, from N Orleans bound to Lyons, was burned at sea, on the 20th ult. Her crew had arrived at Liverpool.

London, Saturday July 9th, P. M.—Consuls are quoted at 35½/34 for money, 91½/93 for account.

The London Times says, with regard to the armistice, there is little to communicate beyond what the public already know. All that seems to be well authenticated is that the proposal came from France, and was the result of the Emperor's own determination. That the Emperor Napoleon shall stop short of victory and make overtures to a foe whom he has defeated in two pitched battles, and hurried back to the lines of Lombardy, argues the moderation, or the necessity of the French ruler; and we cannot believe that the latter have been the cause of such a sudden resolve.

Sydney, July 8.—His Majesty, King Oscar, died to day. He was born on 4th July, 1792.

FROM THE SEAT OF WAR.

VIENNA, July 8.—The Austrian correspondent sends us the following:—The French Frigate Imperiale, bombarded Souda yesterday, the fortifications returned the fire. The Imperialist last broke off the contest, appearing to have suffered injury.

The Vienna Gazette publishes an amended list of the killed and wounded at Solferino. As to others, the return gives the number killed 414 wounded 1,600, total 2,014, and 1,600 recovered.

ROMA, July 8.—A letter from Roma published in the *Times* says, That on the 2nd inst., the French Fleet, consisting of 64 sail, was at no great distance from Venice.

The Hungarian legion forming at Genoa is to be clothed like the Hungarian soldiers in the Austrian army, as it is believed the latter will not be on wear men wearing the national costume.

Additional Foreign News.

VENICE, July 8.—The Moniteur publishes the imperial decree by which a new regiment of Algerian sharpshooters is to be created. It is to consist of three battalions of six companies each.

Rome.—A letter from Roma published in the *Times* says, That the Mazimichi have issued a pretended order of the Pope, as if it had been issued at the war office, directing the most severe treatment of the violated districts.

Very Latest by Telegraph.

London, July 9.—A letter from Belgrave says, That about sixty young men, belonging to the first families of Serbia, have solicited permission to form a corps to fight in favor of Italian independence.

Spain will maintain her neutrality so long as Italian princes and the church is maintained.

Washington Items.

Washington, July 8.—A special dispatch to the Charleston Courier from New Orleans, dated the 18th, says that the state of Texas, Mexico, desire an American force of 3,000 men to aid them in the capture of Matamoros. The Texan force had already arrived at Tampico to aid the Liberals. Gen. De Galdara was at Tampico, and Gen. Gómez was at Vera Cruz.

U. S. Minister McLean has positively made no definite plan with Jose.

The U. S. Minister has received the Central American mission, Dr. M. Harrington, of North Carolina, formerly member of Congress, and subsequently Minister to Spain. It is thought, however, that he will decline.

The news of the European prospects produced much gratification in the Government official and diplomatic circles.

The Committee of Parents designs leaving Washington next week, to be absent nearly two months.

Important despatches from Minister McLean, were to day received by a special messenger. The sleep of war Savannah is again to be sent to the Gulf of Mexico.

The Navy Department have received dates as late as the 25th of May from our vessel in the Brazil station.

All of them were in the river La Plata, Buenos Ayres; and in view of the unsettled condition of affairs, it was deemed advisable to keep them there.

The Committee of Parents has issued a circular in which he advised the members of the army and navy, who are subject to editorial examination, to present with their usual vouchers, on the 4th September and 1st January next, respectively, a certificate as the state of their disability—the provision of the act of Congress, 2d March, 1852, virtually suspending the commutation of each bimonthly period, until the certificate of two physicians or surgeons have been presented.

The Charleston papers received here record the death of the venerable Col. Ion, who had held a conspicuous and distinguished position in the militia of the State of South Carolina.

The Secretary of the Interior will call on Mr. F. D. Bassett, of No. 10 West side of the Public Square, in Terre Haute, Indiana, where they have established an assay office of WOOLEN GOODS, of their own manufacturing, such as Cloths, Cambric, Jeans, Satinets, Blankets, Linseys, Flannel and Fancies, Stocking Yarn, &c., which will be exchanged for WOOL on reasonable terms.
